## EXPERIENCE

### Trainee Software Engineer

#### Navitsa Technologies Pvt Ltd

Aug 2024 – Present

Colombo, Sri Lanka

- Contributed to developing full-stack web applications with Angular for frontend and Spring Boot for backend services
- Implemented responsive UIs, resolved UI and validation issues, and utilized Spring Boot with Java for server-side logic and RESTful API development, implementing CRUD operations to meet project requirements
- Worked on MySQL database and integrated it with RESTful APIs for smooth data transfer between frontend and backend

## PROJECTS

### VetZii - A Veteranarian Booking Application

Nov 2023 – Mar 2024

- Collaborated on the backend of a veterinary booking app with a disease prediction system by developing RESTful API endpoints using Node.js and Express.js to handle CRUD operations
- Tech Stack – Flutter, Node.js, MongoDB

### Product Display Website

Jul 2024 – Aug 2024

- Built a React.js/Next.js app with a MongoDB database for dynamic product management. Supports CRUD operations, allowing users to add and delete products. Hosted on Vercel for easy deployment
- Tech Stack – React.js, Next.js, MongoDB

### Shopping Managing System

Nov 2023 – Jan 2024

- Developed an online shopping management system encompassing both GUI and CLI components, enhancing the shopping experience for customers, by utilizing Java OOP and Java Swing to manage shopping carts, calculate total costs, and apply discounts
- Tech Stack – Java OOP, Java Swing

### Tourism Website

Feb 2023 – Mar 2023

- Created the quiz page to offer visitors a way to test their knowledge of Sri Lanka and the About Us page to provide comprehensive information about the project team, for a modern Sri Lankan tourism website, by employing HTML5, CSS3, and JavaScript to enhance user engagement and provide informative content
- Tech Stack – HTML5, CSS3, JavaScript

### University Grade Analyser

Oct 2022 – Dec 2022

- Developed a Python-based CLI system that enables university students to forecast their progression outcomes
- Tech Stack – Python

## SUMMARY

Motivated software engineering undergraduate seeking an internship to contribute to innovative, high-quality software development in a collaborative environment

## EDUCATION

### B.Eng. (Hons.) in Software Engineering

Informatics Institute of Technology affiliated with University of Westminster

Sep 2022 – Present

## SKILLS

- Languages – Java, Python, JavaScript, PHP
- Tools and Technologies – HTML5, CSS3, Angular, Spring Boot, Node.js, Express.js, MySQL, MongoDB, Postman, Git, GitHub
- Knowledge – SDLC Basics, Agile Fundamentals, OOP Fundamentals
- Soft Skills – Communication, Analytical and Problem-Solving, Teamwork, Leadership

## CERTIFICATIONS

- Udemy – Spring Framework 6 and Spring Boot 3
- LinkedIn - Angular Essential Training
- University of Moratuwa - Web Design for Beginners
- University of Moratuwa - Python for Beginners

## REFEREES

### Ms. Imani Randhuli

@ Informatics Institute of Technology

✉ imani.r@iit.ac.lk

Lecturer - Professional Development

### Mrs. Yasora Perera

@ EvonSys Pvt Ltd

✉ yasora.perera@gmail.com

Associate Consultant
